

SMERF - Preparing SME for the future

SMERF creates a unique approach by linking the 4 pillars of:

1. Innovation culture
2. Digital manufacturing
3. Open innovation 2.0 & sharing economy
4. Green & circular economy & sustainability

SMERF helps SMEs to transform and adopt innovative approaches:

- Interregional cooperation, knowledge exchange & best practices
- Creation of an innovation-friendly culture
- Introduction / acceleration of digitalisation in production
- Encouraging SMEs to use Open Innovation 2.0 tools & methods
- Implementing solutions and best practices in line with the Green Deal and the Circular Economy

To reach the goals, SMERF will develop and implement:

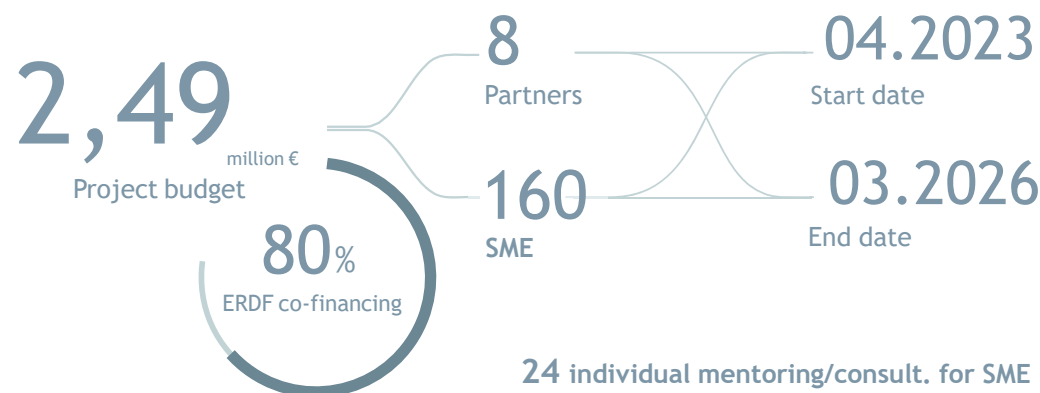

- Inspiration Knowledge Base within 4 pillars
- Innovative "ready-for-future" audit methodology
- SMERF Diagnosis Tool to evaluate SMEs' level of advancement in 4 pillars and create individual transformation scenarios for > 160 SMEs
- 20 webinars & trainings for further qualification of SMEs
- National & transnational study tours
